plaster

**Ownership**  
destroyed

**More Information**

This is the only photograph of the small plaster maquette of the Torso with Point as a maquette. It was originally enlarged to full scale height of 42 inches. Moore did not like the pointed limb and cut it off. He then altered the maquette to Maquette for Torso (LH 568) and had editions cast of the maquette and the full scale Torso (LH 569).... Errol Jackson
